

Dear Birthparent,

Our names are Joe and Jackie. We have known each other since high school and were married on March 20, 2003. We are not able to have children of our own and would love to adopt a child whom we can love and provide a good home for.

We thank you for choosing adoption and giving us the chance to raise a child that we would not otherwise get. Our goal is to become parents, and through adoption we can love and cherish a child.

We live in the country, southeast of Fond du Lac, in a three bedroom ranch home which was built in 2004. We believe there is nothing better than living in the country. We love sitting outside in the evening, enjoying the fresh air, listening and watching the birds and animals that come into our backyard. There is plenty of room to run, inside and out. An elementary school and a park is less than 5 minutes away. We are both members of Shepherd of the Hills Catholic Church, which is also close by.

All of our family and friends are very supportive for us on our adoption plans and are very excited. Joe has 6 other siblings and I have 4. There are 11 nieces and nephews between the ages of 7 and 21 and they are very excited to have another cousin.

Joe and I were both born in 1967 and graduated from Campbellsport High School in 1985. Joe went on to Lakeshore Technical College for a degree in Agriculture, and works in the milk industry. I babysit and work part time. In early 2010, I took classes at Moraine Park Technical College and became an emergency medical responder. I am now part of a First Responders team. We are the first to respond to a scene to help stabilize patients for transport to the hospital. I am also a member of the Firemens Auxillary, acting as the director and secretary. Joe belongs to the Lions Club. I would love to be a stay at home mom, if we are so blessed.

We enjoy spending time together. We love watching the Packers and the Brewers play. We take day trips and visit different places in Wisconsin. Going camping with our families have gotten to be a traditional event, spending time with our 13 nieces and nephews is always fun. I enjoy playing softball, Joe is our biggest fan, usually caring for my teammates children while we play. We both enjoy golf, even though we are not very good. Joe loves gardening and cooking. We do some canning, mainly pickles and tomato juice, and freeze fruit. Everything comes out of our garden.

We would love to meet with you and are looking forward to meeting that special baby that was meant for us. We wish you the best, whatever you decide.

Sincerely,
Joe and Jackie
