

Hello,

We are the R Family. We would like to share with you our life and the life we want to give to your child.

We would like to thank you for considering adoption for your child. We think this is a very noble and selfless act of giving on your part. We want you to rest assured that you will be forever known in your child life. We are honored that you have chosen to read over the story of our decision to adopt. We hope you find in our story that we will be the kind of parents you can trust will love and nourish your child. If you decide to allow us to become parents to your child and a sister or brother to our 3 year old little girl, this will make our family complete.

Our decision to adopt is due to our inability to have our own birth children. I have blocked fallopian tubes, which prevents the egg and sperm from meeting to create life. I have had several surgeries to try to fix this problem, but unfortunately none of the surgeries were successful.

We both worked at the same company and became friends. We would often talk at work about everyday life and found that we had the same interests. Mr. R took another job and ended up leaving the company to becoming a Sourcing leader at a computer manufacturer. Mr. R had stayed in contact with mutual friends from work so we would meet with the same friend for lunch. Our relationship developed from there. Our first date was going to the movies and from then on we would see each other almost every day. We enjoy a lot of the same things, like exercise, biking, hiking, traveling ATV, spending time with Family/friends, taking care of our pet (our Alaskan Malamute) gardening. For the past 3 years we have also been enjoying parenting our 3 year old little girl.

We dated for about 1 ½ years and then one day Mr. R took me away for a surprise weekend. We went to Green Lake WI. Mr. R rented a hot air balloon and per posed marriage to me way up high in the sky! Mr. R always has special surprises, just as we would do for our child. We were married ½ years later.

Knowing I was unable to have children we decided to place our name in for adoption. We were blessed in May 2008 with our beautiful baby girl. In addition both of us come from big families. Mr. R family includes his Mom and Dad and 3 brothers. Mrs. R. Family includes Mom and 1 sister and 2 brothers. We have 33 nieces and nephews, ages from 18 months to 35 years. All of our family lives within 1 hour of each other, so we celebrate Christmas, Easter, Thanksgiving and summer picnics together.

We have a very strong belief in God and will make sure our children are brought up knowing and understanding their faith.

Sincerely,

*The R Family*
